John - based on the committee letter dated 2/18, its very clear you and the committee have no intentions of letting the deacons hear my defense. Your last letter tells me you've made your conclusions and are not truly open to hear any opposing views. You will tell your conclusions about me uninterrupted to the deacons, but for some reason your committee is afraid to let your deacons hear the whole truth and weigh both sides of these issues before voting. I suppose that is best, that way the deacons will feel free to unanimously rubber-stamp whatever your committee recommends.

Since I will not be allowed to speak freely my defense there is no reason for me to attend.

Sincerely,
